

## Feedback of +Erasmus program, WSG University of Economy

Hello, I am Mungun-Uyanga Batnasan exchange student from Mongolia under the +Erasmus program. I have studied at WSG University of Economy in summer semester and stayed in Poland for 6 months.

For me it was very new thing, as 2020 is being really tough year for everyone but this Erasmus experience was the happiest part of this year.

- ◆ I have studied my lessons by online but it was productive, all the professors were trying the best to help us. All the tasks and grading was clear to understand and I learned a lot of things.
- ◆ We couldn't go out as much as we wanted because we supposed to prevent from virus and staying safe. But dormitory life was fun. We had a great time spending together, playing and enjoying. On the other hand we made a really good bond together. At the 1<sup>st</sup> floor, we had a place to workout and play all together the board game and cards. It was awesome.
- ◆ One of the best thing of the Erasmus was learning about another traditions. I had a good friendship with my roommate and other students. It was interesting to know their tradition, exchanging thoughts and experiences.
- ◆ Of course, traveling is unforgettable. I went to different cities of Poland as much as I could. The most favourite thing for me was the old historical places, colourful buildings, food and drinks. I liked that the cost of traveling in Poland is affordable than other European countries.

At the end caused by pandemic I couldn't go to my country, but the University was supporting me a lot by information and by financially. Thank you so much for helping me to solve the issue.

I would recommend to visit Poland and study WSG Univesity, it will worth the education and self developing.

Thank you,  
Best regards.
